

User Persona

Arjun

Age: 35

Occupation: Doctor

Technology Level: Intermediate

Devices: Smartphone, laptop

BACKGROUND

Dr. Arjun is a busy hospital doctor who values fitness and discipline. He starts his day with the gym and follows healthy habits but sometimes misses them due to his demanding work schedule. He wants a simple app to stay organized and consistent.

LIFESTYLE

- Starts the day with a gym workout.
- Drinks water regularly and tracks hydration.
- Follows a healthy diet.
- Works long hospital shifts.
- Uses productivity apps daily.
- Plans daily activities in advance.
- Values health, discipline, and time management

GOALS

- Maintain a consistent fitness routine.
- Stay hydrated throughout the day.
- Manage work and personal tasks efficiently.
- Track long-term health and career goals.
- Monitor daily productivity.

PAIN POINTS

- Busy work schedule.
- Misses workouts due to emergencies.
- Forgets to drink enough water.
- Limited time for personal activities.
- Difficulty maintaining consistency during night shifts.

NEEDS

- Quick habit logging.
- Smart reminders for water, meals, and workouts.
- Easy task management.
- Goal progress tracking.
- Weekly and monthly analytics.

OPPORTUNITIES

- Mart reminders for hydration, meals, and workouts.
- Track daily habits despite a busy schedule.
- Monitor fitness and health progress with analytics.
- Manage personal and professional tasks in one app.
- Improve consistency through goal and habit tracking.

BACKGROUND

A 12th standard student is in the final year of higher secondary education, typically 17 years of age. He focus on preparing for board examinations while planning their future education and career. He regularly attend classes, complete assignments, and use digital resources to enhance his learning.

PERSONAL CHARACTERISTICS

- Responsible
- Self-motivated
- Independent

HOBBIES AND INTERESTS

- Reading Books
- Playing sports
- Listening to music
- Learning new skills

GOALS

- Improve daily study habits.
- Complete homework on time.
- Maintain a healthy daily routine.
- Score good marks in exams.

PAIN POINTS

- Procrastination.
- Distractions from mobile phones and social media.
- Difficulty maintaining a consistent routine.
- Poor time management.

NEEDS

- Simple habit tracking system.
- Daily reminders and notifications.
- Progress tracking with visual reports.
- Motivation to stay consistent.

OPPORTUNITIES

- Develop better study habits and improve academic performance.
- Build a consistent daily routine and time management skills.
- Track progress and identify areas for self-improvement.
- Stay motivated through reminders and achievement tracking.

THARUN

Age: 17
Occupation: Student
Technology Level: Intermediate

RAMYA

Age: 24
Occupation: Software developer
Technology Level: High

BACKGROUND

Ramya is a 24-year-old software developer working in an IT company. She spends most of her day coding and attending meetings. Due to her busy schedule, she struggles to maintain healthy habits and work-life balance, relying on digital tools to stay organized and productive.

PERSONAL CHARACTERISTICS

- Responsible
- Self-motivated

HOBBIES AND INTERESTS

- Content Creation
- Reading Books
- Listening to music

GOALS

- Balance work and content creation.
- Stay productive every day.
- Maintain healthy habits.

PAIN POINTS

- Busy work schedule.
- Time management.
- Staying consistent with habits.

NEEDS

- Simple habit tracker.
- Smart reminders.
- Progress tracking.
- Habit suggestions

OPPORTUNITIES

- Smart habit reminders.
- Personalized habit recommendations.
- Progress tracking with analytics.
- Goal setting and streak rewards.

Velumani

Age: 62

Occupation: Typewriter
Operator

Technology Level: Beginner

Devices: Smartphone

BACKGROUND

Velumani has worked as a typewriter operator for over 35 years. His work requires patience, discipline, and consistency. Although he is experienced in managing paperwork manually, he has limited knowledge of digital productivity tools. Recently, he wants to develop healthier habits and organize his daily activities using a simple mobile application.

GOALS

- Maintain a healthy daily routine.
- Never miss important daily activities.
- Build consistency in daily habits.
- View progress without complicated statistics.

NEEDS

- Large buttons and readable text.
- Simple navigation.
- Daily reminders.
- Easy habit tracking.
- Clear progress visualization.

LIFESTYLE

- Follows a disciplined daily routine
- Works as a typewriter operator
- Lives with family
- Uses an Android smartphone for basic tasks
- Prefers simple and easy-to-use technology
- Health-conscious and takes medicines regularly

PAIN POINTS

- Forgets daily medicines.
- Difficulty remembering recurring tasks.
- Finds most productivity apps confusing.
- Small text is difficult to read.
- Too many menus create confusion.

OPPORTUNITIES

- Sending reminder notifications.
- Showing a daily checklist.
- Displaying progress using simple colors and icons.
- Providing weekly habit summaries.
- Using large fonts and high-contrast themes.

Divya

Age: 24
Occupation: College Student
Technology Level: High

BACKGROUND

Divya is a college student who wants to balance academics, fitness, personal development, and social life. She uses digital tools regularly but struggles to maintain consistency across multiple goals.

PERSONAL CHARACTERISTICS

- Creative
- Easily distracted
- Competitive with herself

HOBBIES AND INTERESTS

- Photography
- Watching movies and series
- Learning new skills

GOALS

- Complete academic tasks on time
- Maintain a fitness routine
- Develop new skills
- Complete personal goals
- Maintain a balanced daily routine

PAIN POINTS

- Procrastination
- Multiple deadlines
- Inconsistent routines
- Social media distractions
- Difficulty tracking long-term goals

NEEDS

- Daily task tracking
- Habit reminders
- Goal and subtask management
- Progress analytics
- Calendar and heatmap

OPPORTUNITIES

- Personalized daily dashboard
- Smart reminders
- XP and streaks for motivation
- Goal breakdown into smaller tasks
- Heatmap to visualize consistency
- AI-based productivity suggestions

Suresh

Age: 30
Occupation: Fitness Trainer
Technology Level: Intermediate

BACKGROUND

Suresh is a fitness trainer who starts his day early and spends most of his time training clients. He follows a healthy lifestyle but sometimes struggles to manage his own workouts, meals, and personal goals.

PERSONAL CHARACTERISTICS

- Energetic
- Disciplined
- Motivating
- Social

HOBBIES AND INTERESTS

- Sports
- Outdoor activities
- Weight training

GOALS

- Maintain his own fitness routine.
- Track client and personal workouts.
- Stay consistent with nutrition and hydration.
- Manage his daily schedule efficiently.

PAIN POINTS

- Busy schedule with multiple clients.
- Sometimes skips his own workout.
- Finds it difficult to track everything manually.

NEEDS

- Workout tracking
- Hydration reminders
- Client/task scheduling
- Fitness goal tracking
- Progress analytics

OPPORTUNITIES

- Workout and habit tracking in one place.
- Smart hydration and meal reminders.
- Flexible scheduling for client sessions.
- Weekly fitness analytics.

Nikil

Age: 38
Occupation: Government Employee
Technology Level: Intermediate

BACKGROUND

Nikil works in a government office with a regular schedule. He manages paperwork and administrative tasks throughout the day and wants to use his free time more effectively.

PERSONAL CHARACTERISTICS

- Responsible
- Patient
- Organized

HOBBIES AND INTERESTS

- Cricket
- Gardening
- Watching movies

GOALS

- Complete daily responsibilities on time
- Exercise regularly
- Spend quality time with family
- Maintain a healthy routine

PAIN POINTS

- Repetitive office work
- Sometimes feels unmotivated after work
- Postpones personal tasks
- Finds it difficult to maintain exercise consistently

NEEDS

- Habit reminders
- Goal tracking
- Simple progress reports
- Calendar and deadline tracking

OPPORTUNITIES
